Dear Astrid:

It was a bit difficult returning to "perfectly flat" southern Delaware after enjoying and savouring the majesty of the mountains for a few days.

We must thank and compliment you on planning and orchestrating a pretty flawless "Bavarian experience." The itinerary contained everything on our wish list, and having to unpack only once a dream come true. Landhaus Kossel is as comfortable as it is charming and the location quite incomparable. Our special thanks to the Mayr-Kossel team for making us feel so welcome and for fabulous *breakfasts with a view* that we shall long remember (and extol).

You have quite a national treasure in Peter, our tour director. His knowledge, preparedness and youthful perspective are surpassed only by his courtesy, professionalism and wonderful sense of humor. We looked forward to each and every day with Peter at the helm.

Lastly, we Americans love our food. Your restaurant and dining choices were superb, delicious and great fun. It was difficult to pick a favorite -- we loved them all!

In a nutshell, *Bavarian Castles Tour* is a winner. Please know it was one of our most delightful and interesting travel experiences -- we thank you for making it happen!

Sincerely,

*John & Bill*
